How to Avoid Paying Interest on Purchases	Your due date is at least 25 days after the close of each billing cycle. We will not charge you interest on purchases if you pay your entire balance by the due date (Grace Period) each month.			
Minimum Interest Charge	None			
<p>Method of Computing Balance on Purchases Average Daily Balance Excluding New Purchases *A Finance Charge will be imposed on Credit Purchases only if you elect not to pay the entire New Balance shown on your monthly statement for the billing cycle during which such transactions are posted to your account within 25 days from the closing date of that statement. If you elect not to pay the entire new balance shown on your monthly statement within that 25-day period, a finance charge will be imposed on the unpaid average daily balance of such Credit Purchases from the statement closing date (but not on Credit Purchases posted during the current billing period) and will continue to accrue until the closing date of the billing cycle preceding the date on which the entire new balance is paid in full or until the date of payment if more than 25 days from the closing date. The Finance Charge for a billing cycle is computed by applying the monthly periodic Rate to the average daily balance of the Credit Purchases, which is determined by dividing the sum of the daily balances during the billing cycle by the number of days in the cycle. Each daily balance of Credit Purchases is determined by subtracting from the outstanding unpaid balance of Credit Purchases at the beginning of the billing cycle and payments as received and credits as posted to your account, but excluding any unpaid finance charges. A Finance Charge will be imposed on Cash Advances from the date of the Cash Advance or from the first day of the billing cycle in which the Cash Advance is posted to your account, whichever is later, and will otherwise be calculated in the same manner as explained for Credit Purchases.</p>
